

GOLDEN RULES FOR STARTING UGC

Focus on Authenticity over Perfection

UGC works because it feels like a genuine recommendation from a friend, not a highly produced corporate commercial.

Pitch Consistently and Strategically

Landing deals requires proactive outreach. Identify brands whose aesthetic and target audience align with yours, and track your communication carefully

Build a Portfolio First

Catch up on articles, ebooks, or quick reads.

Establish a Dedicated Creator Account

Separate your personal social media from your business. Create dedicated TikTok and Instagram profiles specifically to post your UGC examples and showcase your personality to potential brands.

Understand Usage Rights and Contracts

Protect legal rights by using watermarks before final payment, requiring written contracts, and charging extra for paid ad usage.
